Dataset: Global Electronics Retailer (fictitious) sales data
Report generated: October 19, 2026

1. Executive summary

The Sales table contains 62,884 order line items from January 01, 2016 to February 20, 2021, grouped into 26,326 distinct orders placed by 11,887 customers at 58 stores (including the online store) for 2,492 different products. A total of 197,757 units were sold.

Revenue is calculated as Quantity multiplied by Unit Price USD from the Products table. Total revenue is $55,755,480 and total gross profit (revenue minus Quantity times Unit Cost USD) is $32,662,688, a gross margin of 58.6%. The average order value is $2,118, the average order contains 2.39 line items and 7.51 units, and the average line item sells 3.14 units.

Table 2. Annual summary.

Figure 2. Monthly revenue. Highest month: December 2019 ($2,477,296). Lowest full month: April 2017 ($58,580).

The monthly series shows a sharp drop in early 2020. Revenue for March to June 2020 averaged $633,636 per month, compared with $1,522,032 per month in 2019. The lowest month of 2020 was April 2020 at $217,642. April has almost no recorded orders in every year of the dataset (see Data notes), so April lows reflect missing data rather than real demand. The dataset does not state the cause of the 2020 decline.

5. Customers and currencies

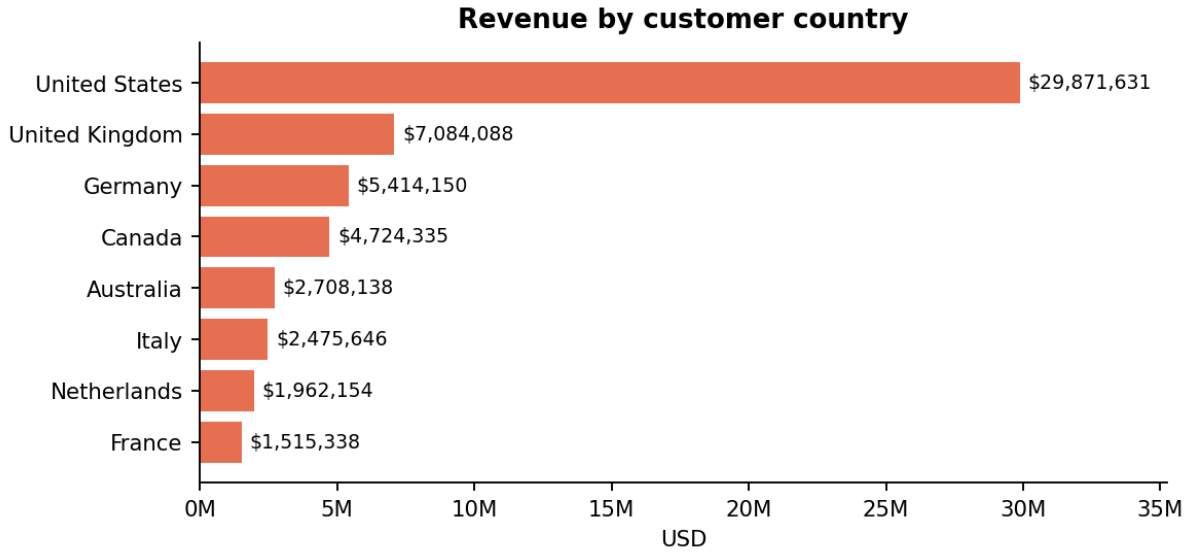

Figure 8. Revenue by customer home country: United States: $29,871,631; United Kingdom: $7,084,088; Germany: $5,414,150; Canada: $4,724,335; Australia: $2,708,138; Italy: $2,475,646; Netherlands: $1,962,154; France: $1,515,338.

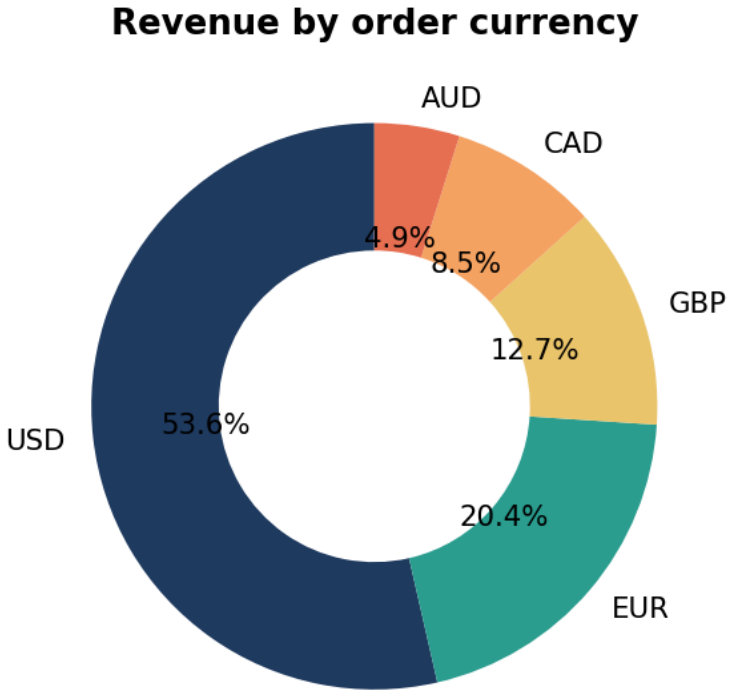

Figure 9. Share of revenue by order currency: USD 53.6% (33,767 line items), EUR 20.4% (12,621 line items), GBP 12.7% (8,140 line items), CAD 8.5% (5,415 line items), AUD 4.9% (2,941 line items).

Of 11,887 purchasing customers, 7,272 (61.2%) placed more than one order. The most orders by a single customer is 14. The median order value is $1,146 and the largest single order is $43,279.

Revenue by customer gender: Female $27,420,625 (49.2%); Male $28,334,855 (50.8%).

6. Online order delivery

Only online orders have a Delivery Date; in-store purchases have none. Across 5,580 online orders, the average delivery time is 4.5 days (median 4, maximum 17). 91.5% of online orders were delivered within 7 days.

Figure 10. Number of online orders by days to deliver. 1 days: 219; 2 days: 642; 3 days: 1,052; 4 days: 1,166; 5 days: 934; 6 days: 697; 7 days: 398; 8 days: 220.

7. Data notes

The data has no orders on 237 of 1,878 calendar days (12.6%), which is why some months look unusually low. Months with the most empty days: 2017-04 (25 days); 2016-04 (23 days); 2018-04 (23 days); 2019-04 (23 days); 2020-04 (23 days).

- Revenue and profit use list prices and unit costs from Products.csv in USD; discounts and taxes are not in the dataset.
- Currency Code records the currency of the order but does not change the USD revenue calculation.
- 2021 data covers only January 1 to February 20, so 2021 annual totals are not comparable with full years.
- StoreKey 0 represents the online store.
